Asset register review financial year 2022-23

The Council have not purchased any new or disposed of any existing assets during the financial year 2022-23.

The 'current value' column is used for insurance purposes. If damaged beyond repair a replacement red telephone kiosk would cost in the region of £4000 (kiosk, delivery and installation)

It is recommended Council consider insuring the telephone boxes for the cost of replacing them (£4000 each), not the nominal purchase price (£1).
