Good afternoon,

Essentially it would be promoting the schemes which we're currently trying to publicise across the borough. We feel as though the local publication approach through the parish council will assist us in reaching more remote villages such as Barton Bendish.

Many thanks,

Jacob Medlock, Housing Standards Officer (Energy Efficiency)

Hello Jacob

Thank you for your email, I'll take that to the next full council meeting in July. Please can you expand on what you envisage 'working with the Parish Council' to be. This is a very small council and I only work for them for 4 hours per week. What involvement are you looking for?

I look forward to hearing from you.

Kind regards

Mrs Sharon Sweet PSLCC

Clerk to Barton Bendish Parish Council

Good afternoon,

The Borough Council is currently in the process of administering several fully funded home improvement schemes to assist individuals living within West Norfolk.

There is now a wider range of schemes available that has enabled us to qualify more individuals for different funding streams and interest is already starting to pick up throughout the borough.

Although we're conducting targeted mailouts and publishing relevant social media materials, we would very much like to work with parish councils from across West Norfolk to ensure that we're reaching as many people as possible. A lot of individuals, especially those living within rural parishes feel much more reassured that their parish is also supporting the services that the Borough Council is providing.

We would very much like to work with yourselves on this. Whether this is through our attendance at a parish meeting or whatever means you see necessary.

Please let me know if this is something you're interested in and we can pencil in a meeting to discuss further.

Many thanks,

Jacob Medlock, Housing Standards Officer (Energy Efficiency)
