Dear Barton Bendish Parish Council,

Dear Burnham Market Parish Council,

The cost-of-living crisis has meant that this last winter has been incredibly challenging for people who use WNDiS services. This winter will be just as hard for our clients. WNDiS provides advocacy and advice for people across the whole age range, from help with getting the right support at school for children with special needs, to getting extra support for those living with health issues and disabilities, provided by personal independence payments and disability living allowance. This help is available throughout West Norfolk, and your parish is very likely to include people who use and benefit from WNDiS services. For more details on our work, visit our website : www.WNDiS.org.uk.

The funding available to WNDiS has historically come from the NHS, and is only guaranteed annually. Other funding comes from a local charity - The Farthing Trust and another £1,000 from King's Lynn Borough Council. The instability of NHS and other funding has led us to considering other potential revenues, including requests to parish councils. WNDiS makes extremely good use of money donated; for every £1 in funding it generates over £16, which goes directly into local economies.

We realise that you have many demands on your resources and would welcome any donation at all. The easiest way to send a donation is by a cheque made out to WNDiS to the office address below.

Yours sincerely,

Vickie Joel

Coordinator

On behalf of West Norfolk Disability and Information Service.
